STOCK MARKET

New York, Jan. 21.—Stocks were firm at the opening of today's market, but trading was materially restricted by the new government regulations. Coppers, oils and obscure specialties were the strongest features, their rise extending from large fractions to 2½ points in the case of Mexican Petroleum. United States Steel and kindred equipments were moderately better, but shippings were again heavy and rails almost entirely neglected. Liberty first 4s sold at the new low record of 96.64.

Trading became extremely dull in the intermediate session, 6 per cent, call money causing further restraint. Dealings were limited to a few specialties at gains of 2 to 4 points, Marine preferred meanwhile reacting.

New York, Jan. 21.—Wall street en-tered upon its first heatless Monday with the utmost good nature. Elevator service and light were greatly curtailed service and light were given in all the big office buildings, the reduction in some instances leaving the main corridors in darkness. HOOVER MAY EXPLAIN LIGHT CHARGE TOMORROW

Chattanooga's paving plans on streets over which car lines run will go forward regardless of the stand of the Chatta. ooga Railway and Light company that it would do no paying or construction work during the war. Several important pieces of work have been planned by the city, and notice has already been sent the rallway company that their end of the paving must be done before the city begins its portion. Vice-President F. W. Hover, of the railway company, said that the company never intended to refuse to do any paving, and that it fuse to do any paving, and that it was willing to do whatever was necessary.

Under the franchise of the converse of the conve city can force any paving between the tracks that it thinks is necessary.

Since Mr. Hoover has returned to Chattaneoga city officials have been hopeful that he could be in the city Tuesday and well enough to attend the regular meeting of the commissioners and explain the system of charging used by the company. Mr. Hoover has declared himself as being anxious to expulain the system of the company, but Nemesis has always overtaken him on Tuesdays.

nedicine for women. Eight years ago, I began to feel not eight years ago, I began to leef not quite so well as usual... I was not able to do anything. It seemed like I was dwindling away, and kept getting more puny every day. I was weak and pale and could not stand on my feet long.... I had no doctor, but I knew by my feelings that I had womanly weakness.

knew by my feelings that I had womanly weakness.

After I decided to try Cardui, I
bought one bottle. It seemed as if the
very first few doses began to help me.
I was surprised that anything could
begin to act so quickly. But it helped
me right away. I know it did because
I began immediately to get strong.

After I finished that first bottle, I
bought another. When I had finished
that second bottle, I was all right. I that second bottle, I was all right. I did not need a third bottle. I kept did not need a third bottle. I kept right on getting stronger until I was as strong as ever, and I have kept so. ... Now I am as well and as strong and as able to do my work as I ever was in my life."

EXEMPTION BOARDS WIND UP CLASSIFICATION

Exemption boards are nearing the end of classifications, but there is still much work to be done. Every new list of these classifications brings a long list of appeals. Either the questionnaires were incompletely filled or registrants are a little too persistent about not going in the draft army. The men who classify the registrants have no information other than that set out in the questionnaires, and if it is not there are in tionnaires, and if it is not there an justice is probable and should be appealed at once.

A complete survey of the question.

naires will be made to see that no men who have married since May 18 have claimed and been allowed exemption. In case that some such cases are found an appeal will be taken to Class 1 registrants and the burden will then be on the registrant to prove that he was married prior to that date.

The appeal to the district board was made by Toney's wife.

To Have Perfect Skin Throughout the Winter

These days the face and hands need special care and attention. Strong winds, quick changes of temperature from indoors to outdoors, are severe on the skin. Their despoiling effects are best overcome by the application of pure mercolized wax. This keeps skin and pores in a cleanly condition, the complexion beautifully white and spotless. Chapped, reddened, blotchy and roughened cuticle are actually absorbed by it. One ounce of mercolized wax, obtainable at any drug store, is sufficient to complexion. It is used like cold cream, allowed to remain on over night, and washed off in the morning.

As the skin tends to expand in a warm atmosphere, cheeks and chin to sag and wrinkles to form, a good astringent lotton should be used by the woman who keeps pretty much indoors these days. Dissolve one cunce powdered saxolite in one half plint witch hazel. Bathe the face in this mornings or before going out for theater or social affair. It is a remark, able skin tightener and wrinkle eraser, —(Adv.)
